

Below is a letter sent to President Jean-Claude Juncker on 29 June 2016, with over 1,000 signatories. Since then, new signatures have been added. As of 18 July 2016 the list numbers almost 1,300 names. The full updated list appears below.

President Jean-Claude Juncker

Wednesday, 29 June 2016

European Commission
Rue de la Loi 200
1049 Brussels
Belgium

Re. Securing a sustainable future for the European music sector

Dear President Juncker,

As recording artists and songwriters from across Europe and artists who regularly perform in Europe, we believe passionately in the value of music. Music is fundamental to Europe's culture. It enriches people's lives and contributes significantly to our economies.

This is a pivotal moment for music. Consumption is exploding. Fans are listening to more music than ever before. Consumers have unprecedented opportunities to access the music they love, whenever and wherever they want to do so.

But the future is jeopardised by a substantial "value gap" caused by user upload services such as Google's YouTube that are unfairly siphoning value away from the music community and its artists and songwriters.

This situation is not just harming today's recording artists and songwriters. It threatens the survival of the next generation of creators too, and the viability and the diversity of their work.

The value gap undermines the rights and revenues of those who create, invest in and own music, and distorts the market place. This is because, while music consumption is at record highs, user upload services are misusing "safe harbour" exemptions. These protections were put in place two decades ago to help develop nascent digital start-ups, but today are being misapplied to corporations that distribute and monetise our works.

Right now there is a unique opportunity for Europe's leaders to address the value gap. The European Commission's forthcoming review of copyright legislation can fix this profound market distortion by clarifying the appropriate use of safe harbours.

We urge you to take action now to create a fair playing field for artists and rights owners. In doing so, you will be securing the future of music for generations to come.

We hope we can work with you to create a sustainable and thriving music sector for Europe.

Yours sincerely,

Recording artists calling for a solution to the value gap (full list below)

(Coordinated by IFPI and IMPALA, representing record labels internationally, and supported by GESAC, representing authors and composers in Europe)
